## **DETAILED ACTION**

The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 2-4 and 9-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 2 and 15, the terms "encroaches" and "encroached", respectively, and "a single seat location" are vague and indefinite since it is not clear what structural limitation is implied by the encroaching terms and it is also not clear if a "seat location" requires a seat to be present at the location or if it is only a potential location of a seat. In claims 3, 18, and 21, "non-traversing" is vague and indefinite since it is not clear what is not being traversed, or what structural limitation is implied. In claims 4, 10, 11, 17, 20, 22, and 27, the terms "associated" or "associating" are vague and indefinite since it is not clear how the modules are associated with a seat or what structure is implied. In claims 9, 19, and 26, the term "laterally facing" is vague and indefinite since it is not clearly defined what lateral direction is being referenced. In claim 10, it is unclear how the upper portion of stairs "provides access to a row of seats ...." It appears from the disclosure that the upper part of the stairway is merely placed to avoid blocking access to another row of seats.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

4. Claims 1-6, 9-12, and 14-19 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Canta et al.

See especially Figure 11 and the stairs providing access to the upper module.

<sup>(</sup>b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Application/Control Number: 10/759,464

Art Unit: 3644

Page 3

5. Claims 7 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

- 6. Claim 13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
- 7. Claims 20-27 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
- 8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Olliges et al, Mills, Cheung, Moore, Hohnson et al, and Legrand are cited as being of interest since they disclose aircraft with rest areas.
- 9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Woodrow Eldred whose telephone number is 703-306-4151. The examiner can normally be reached on Monday to Thursday, from 8:00 a.m. to 5:30 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Carone can be reached on 703-306-4198. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
